No. 96 Jinzhai Road, Baohe District, Hefei, Anhui 230026, China

PROFILE

I am interested in high-energy astrophysics, particularly fast radio bursts and pulsars. I focus on their propagation effects and their interactions with astrophysical plasmas.

EDUCATION

- **University of Science and Technology of China** *Sep 2022 - Present*
PhD in Astrophysics (Integrated MSc-PhD Program) Hefei, China
- **Sichuan University** *Sep 2018 - Jun 2022*
Bachelor in Physics Chengdu, China

PUBLICATIONS

Primary Publications

- [1] Yu-Chen Huang and Zi-Gao Dai. (2025). The Extreme Faraday Effect in Fast Radio Bursts. **The Astrophysical Journal Letters**, **983**, L24.
- [2] Yu-Chen Huang and Zi-Gao Dai. (2024). Fast Radio Bursts with Narrow Beaming Angles Can Escape from Magnetar Magnetospheres. **The Astrophysical Journal**, **975**, 226.
- [3] Yu-Chen Huang, Shu-Qing Zhong, and Zi-Gao Dai. (2024). Scattering Cross Sections of Magnetized Particles within Intense Electromagnetic Waves: Application to Fast Radio Bursts. **The Astrophysical Journal**, **966**, 97.

Collaborative Publications

- [1] Tao An, Ailing Wang, Yu-Chen Huang, et al. (2025). A Deep VLA Search for a Persistent Radio Counterpart to the One-off FRB 20250316A. **The Astrophysical Journal Letters**, **991**, L20.
- [2] Ze-Nan Liu, Wei-Yang Wang, Yu-Chen Huang, et al. (2025). Tera-Hertz Counterparts to Fast Radio Bursts from Coherent Cherenkov Radiation by Tilted Bunches. **The Astrophysical Journal**, **989**, 126.

ACADEMIC PRESENTATIONS

- **The 3rd Chinese Fast Radio Burst Symposium** *6 Jun 2025*
Oral Presentation Beijing, China
- **Fast Radio Burst Thailand Meeting 2024** *6 Nov 2024*
Oral Presentation Khao Lak, Thailand
- **The 2024 Annual Meeting of the Chinese Astronomical Society** *31 Oct 2024*
Oral Presentation Hangzhou, China
- **The 2nd Chinese Fast Radio Burst Symposium** *5 Jun 2024*
Oral Presentation Wuhan, China

TEACHING EXPERIENCE

- **Radiative Processes in Astrophysics** *Sep 2025 – Jan 2026*
University of Science and Technology of China Teaching Assistant
- **Introduction to Astrophysics** *Mar 2021 – Jul 2021*
Sichuan University Teaching Assistant

HONORS AND AWARDS

- **Selected for the National High-Level Talent Training Program in Physics** 2025
University of Science and Technology of China
- **National Scholarship (Graduate Student)** 2024
Ministry of Education of the People's Republic of China
 - One of the most prestigious national scholarships for graduate students in China
- **First-Class Graduate Academic Scholarship (Doctoral Program)** 2024, 2025
University of Science and Technology of China
- **First-Class Graduate Academic Scholarship (Master's Program)** 2022, 2023
University of Science and Technology of China
- **Selected for the Wu Yuzhang Honors College** 2018
Sichuan University
 - Top approximately 1.5% selected annually from undergraduate cohort

SKILLS

- **Language:** Chinese (native), English (fluent)
- **Programming Languages:** Wolfram Mathematica, $\text{\LaTeX}$
